Special Dispatch to the Intelligencer.

CAMP BLENERHASSETT, July 22.—The sun rose clear and hot this morning over Camp Blennerhassett, and all day its fierce rays beat down upon the shadeless stretches of drill campus in a way that boded no relief to the weary soldier boys. But they have never flinched, and all day in the scorching heat squad drill has been kept incessantly, and evening dress parade sees every able man at his post. This daily parade attracts immense crowds of people from all over this section of the state and neighboring portions of Ohio. It is a great sight.

There are now 100 men on the hospital rolls, but none are seriously ill so far, the principal ailment being a stomach trouble caused by the fearful heat and change of water (not change to water, bear in mind.) Surgeon-Major H. B. Baguley went to the city last night.

OVERCOME BY THE HEAT.

and purchased a goodly supply of fresh, wholesome medicines, and he is taking care of the sick in a way that betokens the speedy recovery of all. In this work he is ably directed and assisted by Medical Director C. B. Blubaugh, of Parkersburg, and Major S. H. Austin, surgeon Second regiment. One soldier, a private of company K, First regiment, was overcome by the fearful heat this afternoon and had to be carried to his tent.

Most of the boys, however, are becoming thoroughly insured to camp life, and their friends over the state need not be alarmed as to their welfare. The experience of Major Charles L. Hagan, of Charleston, inspector of rifle practice, is the experience of nearly all the boys, the INTELLIGENCER is glad to say. During the trip to camp from Charleston he was not well, and the first day of camp life he was under the weather, not being able to go out in the sun without becoming deathly sick. He is all right now, however, and to-day the INTELLIGENCER found him pacing up and down the beat in front of his tent, apparently enjoying the intense heat and looking "as hearty as a buck." Since it has been decided to abandon rifle practice at this encampment, Major Hagan is assisting Adjutant General C. L. Smith in his office.

ABSENT WITHOUT LEAVE.

Some of the boys slipped out of camp last night, skurried to town and took in Levin's famous casino. A corporal's guard was sent after them, their little matinee was unceremoniously broken up and they were hurried back to camp in a hurry.

A pretty good one is told on Will Franklin, of Company E. He is an industrious fellow, and when relieved of drill duty this morning he went to his

CAUGHT IN THE CASINO.

tent, grabbed a spade and went to work in the trenches; that is, he leveled off some rough places in front of his tent, smoothed down the hillocks, and tried to make the surroundings look as inviting as possible. He continued his work longer than he intended, and when the company was called to arms again for squad drill, he had to rush around frantically to get ready. He had neglected in the meantime to clean his gun, and while those of the other boys were shining like silver, his looked rather rusty. Captain Morrison spoke to Will about the matter; he stood awhile and then said: "Well, Captain, if my gun is somewhat dull looking, I've got a spade out there behind the tent that's as bright as a dollar." He was excused, after the captain had made some remarks or other about not drilling with spades.

COLONEL FREER REINSTATED.

One of the pleasant incidents of army life at the camp to-day was the reinstatement of Col. Romeo H. Freer, who, as stated in yesterday's INTELLIGENCER, had been deposed on account of charges of a serious nature. He is now in full command of his regiment and is restored to all the rights and privileges of his responsible position, all of which his host of friends are exceedingly glad to hear.

Captain C. E. Morrison, of this city, leads to-night in the State Journal's beauty contest, with General Spilman

second, Captain W. S. Hamilton third, Major A. J. Bandy fourth. Keep your eye on General Spilman. He will be the successful candidate.

It is understood to-night that the rigor of drill and guard duty will be abated somewhat if the weather does not cool off. This news will be hailed with joy by the sunburned soldier boys at Camp Blennerhassett, inasmuch as they get not a cent for their laborious duties.

CAMP GOSSIP.

Private Hughes, of Company K, was taken to the hospital this evening suffering from a severe cut on the head inflicted by Private Hayman, of the same company, who was endeavoring to take Hughes to camp for an infraction of discipline.

Not many people know that Major J. C. Gluck, brigade quartermaster, is the father, brother, sister and whole family support of the bill that created the state militia back in 1889, when he was Captain Gluck, and a member of the legislature from Ritchie county. He introduced the bill. At that time the old guard had been in great disfavor and to secure its passage was up hill work. He had to compromise in many ways and finally had to eliminate any suggestions of cost from the bill. The untiring efforts on his part are largely responsible for the militia to-day and the existence of Camp Blennerhassett.

Sunday will be a great day for the soldier boys. Excursions are coming from Wheeling, Zanesville, Charleston, Elizabeth and Huntington to see the environs of Camp Blennerhassett. Major D. T. E. Casteel, of the Second regiment, presents quite an imposing appearance on horseback. He is here, there and everywhere over the camp; knows his duty and does it.

STATE OF TRADE.

H. G. Dun & Co.'s Weekly Review of the Business Situation.

New York, July 22.—R. G. Dun & Co.'s weekly review of trade says: Improvement is noted, not only in comparison with the same time last year, but also in prospects for the coming season. Prospects of spring wheat are remarkably good and returns from many of the states surpass all expectations. Business in dry goods in Boston is active with liberal western orders.

At Philadelphia trade in most lines is fair, but more firm in manufactured iron, while wool sales are large, and the grocery trade is excellent for the season. Manufactured iron is stiffened at Pittsburgh by the closing of many mills, and the works at Cleveland are pushed beyond their capacity with some advance in structural iron.

Southern rails depress prices of pig iron, but bar, plates and structural iron are very active and higher.

Lake copper is weak with large sales at 11 1/2 cents, tin lower at 20.6 cents, and lead at 4.1 cents, with pressure to sell. A further advance in anthracite coal is proposed, but soft coal has sold at \$2 at Philadelphia.

Money is unusually plenty. Merchandise exports in three weeks of July are only half of one per cent larger than last year, while in imports a large increase appears.

The business failures occurring throughout the country during the last seven days number 187, as compared with 190 last week. For the corresponding week of last year the figures were 254.

PHILADELPHIA, Pa., July 22.—The Cleveland team bunched its hits while Philadelphia bunched its errors. Attendance, 2,700. Score: Cleveland, 7; Philadelphia, 1. Errors 2 and 4. Hits, 7 and 8. Earned, 3 and 1. Pitchers, Cuddy and Wehling. Umpire, Emslie.

Dr. Aaron Chapin Dead.

BELOIT, Wis., July 22.—Dr. Aaron L. Chapin, ex-president of Beloit college, died this afternoon at the age of seventy-five years. He was overcome with a fainting spell last Monday, and remained unconscious till he died. He was graduated at Yale.

The Doctors Are Guilty.

Grave mistakes are made by physicians in treating heart disease. The rate of sudden deaths is daily increasing. Hundreds become victims of the ignorance of physicians in the treatment of this disease. One in four persons has a diseased heart. Shortness of breath, palpitation and fluttering, irregular pulse, choking sensation, asthmatic breathing, pain or tenderness in side, shoulder or arm, weak or hungry spells, are symptoms of heart disease. Dr. Miles' New Heart Cure is the only reliable remedy. Thousands testify to its wonderful cures. Books free. Sold by Logan Drug Co.

Base and Top Solid Oak, Ribbed Finish.
Cast-iron Hinges, Locks, 3/4 inch.
Reinforced Steel Rods, 1/2 inch.
Steel Hinges, Locks, 3/4 inch.
Steel Hinges, Locks, 3/4 inch.
Steel Hinges, Locks, 3/4 inch.

THE ADJUSTMENT is simple, perfect and POSITIVE. Any angle desired—even to the 16th part of an inch—can be obtained, and the top held solid and rigid.

The Rest invented and patented for this Stand, it is universally conceded, surpasses in ingenuity and usefulness any device ever made for a similar purpose. When the Stand top is at an angle this Rest is raised and firmly holds its position in preventing a book or other article from sliding off; but when a level or flat top table is required, it is easily and quickly dropped down and out of the way. It is polished metal and plated.

The Extension consists of a 16-inch polished Bessemer Steel Rod that runs down in the post, and which may be raised or lowered and at any point desired is firmly held by a set screw; thus the HEIGHT of the stand is adjusted to meet the requirements of any SITTING or STANDING position.

THE TOP is 14x18 inches. This is the size required for large volumes, such as DICTIONARIES, BIBLES, ATLASES, etc., and is especially well adapted to SHEET MUSIC. Stands on the market with a SMALLER top are practically USELESS.

REVOLVING SHELF, as shown, is 12x12x10 1/4 inches and admits an Unapridged Dictionary, Atlas and many volumes of less size. Is substantially made and finished in Antique Oak. It serves the purposes of a Revolving Book Case.
